THE FIRST BABY.

Its Coming is Looked Forward to With Both Joy and Fear and its Safe Arrival is Hailed With Pride and Delight by All.

The arrival of the first baby in the household is the happiest and most important event of married life. The young wife who is to become a mother delights to think of the happiness in store for her when the little one shall nestle upon her breast and later she shall hear it hiss the sweet and holy name, "mother."

But her happy anticipation quickly vanishes when she realizes the terrible pain and suffering through which she must pass while bringing the little one into the world. An indescribable fear of the danger attendant upon the ordeal soon dissipates her joyfulness.

Thousands of women have learned by experience that there is absolutely no necessity for the sufferings which attend child-birth; they know that by the use of "Mother's Friend" - a few weeks before the trying hour, expectant mothers can so prepare themselves for the final hour that the pain and suffering of the dreaded event are entirely obliterated. It is safely passed through with comparatively little discomfort.

All women are interested, and especially expectant mothers who for the first time have to undergo this trial. In such a remedy, for they know the pain and suffering, to say nothing of the danger, which is in store for them. "Mother's Friend" is woman's greatest blessing for it takes her safely through the severest ordeal of her life. Every woman should be glad to read the little book "Before Baby is Born," which contains information of great value to all. It will be sent free to any one who sends their address to The Bradfield Regulator Co., Atlanta, Ga.

For rent are much in demand and more are needed.

Mr. J. J. Obar will leave next week for New Haven, Conn., and will enter Yale College for a three years' course. Prentiss, of Charleston, has been appointed from the first district. She has visited here and has friends here.

South Carolinians are not infrequently in Washington and there is no mean record. The Douglass brothers lived last in Columbia and consequently our claim upon them is greater than Winsboro's. Mr. Charles Douglass is among the professors in the Georgetown university law school, and in the flush of his youth is already well advanced in the path of fame and fortune. Mr. Scott Douglass, who married a charming young towns-woman, Miss Colley Heyward, has set his face in the same direction - Miss Mary P. Scriver in The State.

The appeal from Galveston to the people of the entire country for assistance in their dire necessity and awful suffering has been responded to with wonderful promptness and generosity, and people have seemed more than willing to do what they could for the stricken city. The horrors of the storm have appalled the world and money and food have been contributed in great quantities, but the needs of the city are great and all that can be given will be needed and our town should be among those sending generous sums. The masses here have already responded, having acted with great promptness, and the other citizens ought not to be behind in their contributions. The Winsboro Bank will receive subscriptions and the Columbia State has already a long list of persons who have sent subscriptions, and every opportunity is offered people to give.

TWO MEN KILLED.
Hugh A. Stevenson at Feasterville and Edward Brazier at Blithewood.

We regret very much to have to record that the primary election did not pass off quietly in Fairfield county. Two men lost their lives on the day of election, one at Feasterville and one at Blithewood.

Mr. Hugh A. Stevenson, who is well known in the county, especially in the northern and western part, was shot and killed at Feasterville by Mr. Johnson, a man, a young man about 34 or 35 years of age. We shall not pretend to give any of the details of the scene here, for Johnson Cameron as principal and Mockbee Cameron as accessory are now in jail to stand their trial, and all the facts will come out when they are tried, and besides we found it impossible to find any one to give us a satisfactory detail of how it happened. It seems that some bad feeling had existed between Johnson Cameron and Hugh A. Stevenson, and they championed different candidates in the election. A quarrel took place between them, and Stevenson was shot and instantly killed by Johnson Cameron. Much excitement prevailed after the homicide. Johnson Cameron was brought to jail by Sheriff Ellison, who was at Feasterville at the time, and Mockbee Cameron was lodged in jail on the same evening (Tuesday).

Hugh A. Stevenson, the deceased, was about forty years old, and leaves a wife and six or seven children. He was a magistrate at the time of his death, and was considered a good citizen. Much regret is expressed here for the unfortunate occurrence that has ended his life.

The Blithewood difficulty is as hard to get at. No one could be found to give us a full account of that. It is stated that a row started between John Rains and E. M. Flaherty, and it was not long before quite a number were engaged in a quarrel. Edward Brazier was shot, but by whom we have no information. A physician was summoned, but Brazier died a few hours afterwards. Brazier was a young man about 22 years of age.

QUESTION ANSWERED
Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis. Nervous Prostration or Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulated the action of the bowels, stimulated the nervous and organic action of the system, and that is all they took with a feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower in liquid form, to make you as fit as a fiddle. Write to the master with you. For sale by McMaster Co., druggists.

Robbed the Grave.
A startling incident of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite - gradually I grew weaker day by day. Three physicians had given me up. Finally, a friend advised me to try Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued to use it for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at McMaster Co.'s drug store.

THE OFFICIAL COUNT.

The Result Not Changed Materially - Did Hoyt or McSweeney Carry the County?
The County Democratic Executive Committee met on Thursday and tabulated the result of the primary. The returns made to THE NEWS and HERALD do not materially vary with the official table published in this issue, except in the vote for Governor. In the official table, the vote at Greenbrier differs with the returns of THE NEWS and HERALD. The official vote as declared by the committee gives Hoyt 25 at Greenbrier and McSweeney 37, whereas THE NEWS and HERALD gave the latter 57. We have often noticed that some people make the figures 5 and 3 very much alike, and it is probable that in making the table the committee mistook 57 for 37, and in this war the error occurred. We feel sure our figures are correct, for the number of ballots cast at Greenbrier are in favor of its correctness. If THE NEWS and HERALD are correct, McSweeney has carried the county by 16 majority; by the official table Hoyt has carried the county by a majority of 4 votes. It is really immaterial which is correct, for it does not affect the result in the State.
